my love for country

Prairie pride has shaped my taste in music...

I grew up in the prairies of Saskatchewan, where country music was always playing in the background. Whether it was Johnny Cash on the radio during a drive or Garth Brooks at a family get-together, those songs became part of who I am. After a long day on the job, there's nothing better than kicking back, turning up the music, and letting those familiar tunes take me home.

instruments

My favourite instrument is the guitar! I love to relax and play some tunes, especially around the bonfire.

artists

Some of my favourite artists include Johnny Cash, Garth Brooks, Luke Combs, and my favourite local band is the Dead South.

live music

I can't get enough of live music! Whether it's at a concert or at the bar, me and my lovely wife can never get enough.

find me at craven

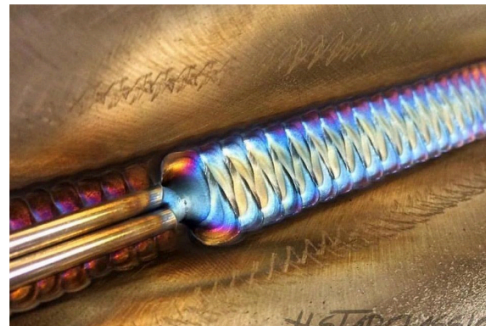

Craven is my favorite event of the year! Nothing beats the energy of the crowd, the great music, and the unforgettable atmosphere. The best show I've ever seen was Luke Combs and Nickelback at Craven—it was unreal!

Work Page

welder by trade...

Welding has been my passion ever since I was young. Working with my hands and seeing a project come together is something I take pride in. Whether it's fixing equipment, fabricating metal, or laying down a clean bead, I believe in doing the job right.

seasonal work

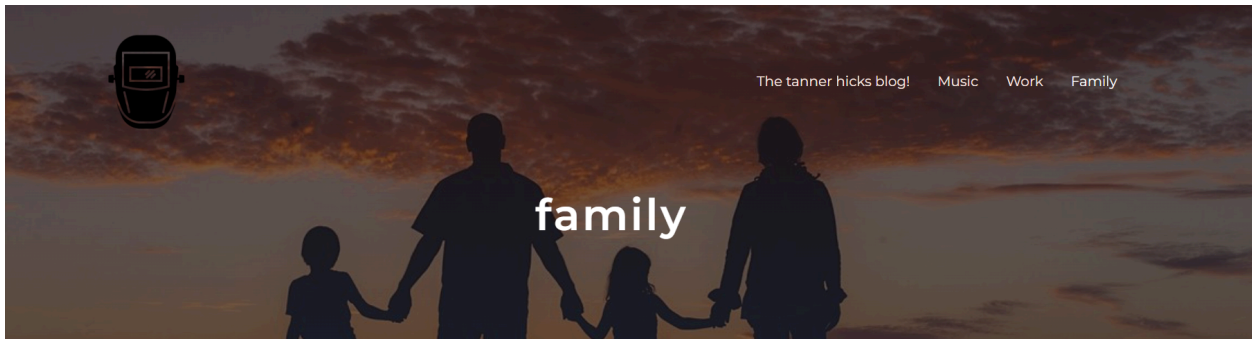

When I'm not welding you'll find me at the shop or on site. I've worked in the trades my whole life, so finding a job can be tough going from the warm summer months into the cold grueling winter.

my dream

My dream is to one day own my own maintenance company, giving me the freedom to build a better life for my family. It would mean stability, independence, and the chance to create something of my own. Beyond that, I have a real passion for welding as an art form—I love the idea of turning metal into something unique. One day, I hope to sell my welded artwork and share my creativity with others.

the gift of life

Having kids is the best part of my life. No matter how hard the days get, coming home to my family makes it all worth it. Watching my kids grow, teaching them the value of hard work, and making memories together is what keeps me going. Family means everything to me.

almost got scammed: ticket reseller nightmare

I almost fell for a scam when buying tickets for a Luke Combs concert. I found what seemed like an amazing deal—two tickets at a price way below face value. The seller was rushing me, and something just didn't sit right. After doing some quick research, I discovered multiple complaints about the seller and realized I was about to get scammed. Thankfully, I caught it in time and avoided losing my money. It was a hard lesson, but now I'm extra cautious when buying tickets from resellers.

legit tickets, unexpected costs

After my close call with a reseller scam, I was relieved to finally find legitimate tickets for the Luke Combs concert. The app was easy to use, and I scored a great price for two tickets. However, when I checked out, there were a few additional fees I hadn't expected. While the extra costs weren't huge, they were still a bit of a surprise. Despite that, I'm still happy with the overall experience. The app made the whole process simple and stress-free, and in the end, I got tickets at a price I was comfortable with. Definitely worth it for a smooth, hassle-free purchase!
